

About us

NHS Herts Valleys Clinical Commissioning Group (**CCG**) started in 2013.

We are responsible for NHS services across:

- Dacorum
- Hertsmere
- St Albans and Harpenden
- Watford and Three Rivers

A **CCG** is a group of local doctors (GPs) and other healthcare professionals.

They work together to plan, provide and pay for NHS services in their area.

CCGs are part of a national organisation called **NHS England**.

NHS England manages health services for the whole of England.

NHS Herts Valleys CCG wants to help people stay well.

We want to make sure that NHS services are meeting the needs of local patients.

We want to make sure that we are spending money on the right services.

We talk to local people, patients and health and care organisations about which are the right services to provide.

We check that these services are run in the best way for the people who use them.

In the future we want keep improving health and care services for everybody.

We want to provide more services closer to where people live.

We are working with other organisations to develop **Your Care, Your Future.**

Your Care, Your Future will look at even better ways to provide health and care services for local people.
