

Note on remote decisions made by primary care commissioning committee since the last meeting in November 2018.

The committee is asked to note that two papers were circulated to the committee for remote approval since the meeting in November.

1) Premises charging.

The committee was asked to *approve* the use and distribution of the guidance document to all GP practices.

Outcome

The proposal was approved following responses being sent to a number of queries.

2) Mental Health Parity of Esteem Funding – alignment with primary care networks.

The committee was asked to agree that this funding should be made available through localities and approve the process.

Outcome

The committee agreed that mental health parity of esteem funding should be made available through localities.

The committee approved the process for the proposal.
